IrisECO®

Paste coloranti concentrate di pigmenti organici e inorganici

Iris Green produce una vasta gamma di paste coloranti di pigmenti organici, inorganici, fluorescenti e perlescenti, le quali trovano applicazione in numerosi settori quali pitture e vernici (edilizia e industriale), inchiostri, cuoio, tessile, legno, cementi, detergenti, prodotti didattici e cancelleria.

IrisECO® sono paste coloranti concentrate di pigmenti organici e inorganici, **VOC-free** e **APE-free**, prive di leganti, a base acqua, prodotte basandosi su rigide specifiche di qualità che garantiscono riproducibilità di forza colore, tono e reologia.

IrisECO®

Organic and inorganic pigment dispersions water-based

Iris Green manufactures a wide range of organic, inorganic, fluorescent and pearlescent pigment dispersions, find application in many areas such as paint and varnish industry (building trade and industrial sectors), inks, leather, textile, wood, cement, detergents, didactics and stationary products.

IrisECO® are organic and inorganic pigment dispersions water-based, **VOC-free** and **APE-free**, binder-free produced with rigid specifications for quality that guarantee to reproduce colour strength, shade and reology.
