IrisBlendW

Water-based colorants for point-of-sale

For over 20 years, our Mission has been to work alongside our customers, helping them to make the best of their colour offer:

Create Value through Colour

IrisBlendW is our series of water-based colorants, specific for architectural paints for interiors and exteriors, designed to be used with tinting equipment. Our colorants are binder-free, **VOC-free**, **APE-free**, **Formaldehyde-free** and allow the final product to meet the most stringent health and environmental regulations.

IrisBlendW colorants are produced based on strict quality specifications for perfect reproducibility of color strength, tone and rheology.

Selection:

- **Basic Module:** reproduces a large selection of shades for interiors (in particular IrisPalette 1050) and a limited range of colours for exteriors. **Suitable for Do-It-Yourself paints**
- **Exteriors Module:** pigment selection for a vast offer of colours for exteriors (in particular IrisPalette 180). Also in combination with Basic Module of IrisBlendU. **Suggested for: masonry paints and plasters for exteriors, silicates, siloxanes, silicone and mineral paints**
- **Reflective Solar Rays:** Reflective Black XNR, with P.Br. 29, offers a high TSR and contributes to reduce the absorption of the heat in plasters and façade systems
- **Wood Module:** transparent iron oxides for **wood coatings**
- **Other Options:** to complete and customize the colour proposals

In addition, we are often asked to develop customized products and countertypes to improve tinting systems in use. In the last 15 years we have developed, in the various lines, more than 500 custom references.

| Masstone | Tint | Code | Name | Color Index | Pigment % |
|------------------------------|------|---------|------------------|-------------|-----------|
| BASIC MODULE | | | | | |
| | | XBO (*) | WHITE | P.W.6 | 60 |
| | | XGO (*) | YELLOW OXIDE | P.Y.42 | 55 |
| | | JV | YELLOW | P.Y.74 | 30 |
| | | OGB | ORANGE | P.O.5 | 15 |
| | | XRO (*) | RED OXIDE | P.R.101 | 65 |
| | | DP | RED | P.R.254 | 40 |
| | | PK | PINK | P.R.122 | 20 |
| | | SM | BLUE | P.B.15:3 | 18 |
| | | GV | GREEN | P.G.7 | 10 |
| | | BK | BLACK | P.Bk.7 | 20 |
| EXTERIORS MODULE | | | | | |
| | | XGL (*) | BISMUTH YELLOW | P.Y.184 | 50 |
| | | XBR (*) | ORANGE OXIDE | P.R.101 | 45 |
| | | XRG | SCARLET | P.R.168 | 15 |
| | | XLR (*) | BLUE OXIDE | P.B.28 | 60 |
| | | XVO (*) | GREEN OXIDE | P.G.17 | 60 |
| | | XNO (*) | BLACK OXIDE | P.Bk.11 | 55 |
| REFLECTIVE SOLAR RAYS | | | | | |
| | | XNR (*) | REFLECTIVE BLACK | P.Br.29 | 55 |
| WOOD MODULE | | | | | |
| | | XGT (*) | YELLOW OXIDE TR. | P.Y.42 | 30 |
| | | XRT (*) | RED OXIDE TR. | P.R.101 | 30 |
| OTHER OPTIONS | | | | | |
| | | YG | YELLOW | P.Y.3 | 37 |
| | | GB | YELLOW | P.Y.74 | 25 |
| | | XHG (*) | EXTERIOR YELLOW | P.Y.154 | 35 |
| | | GM | WARM YELLOW | P.Y.83 | 40 |
| | | XGA (*) | YELLOW ORANGE | P.Y.42 | 50 |
| | | PP | ORANGE | P.O.73 | 30 |
| | | RV | RED | P.R.112 | 30 |
| | | RR | VIOLET | P.V.23 | 5 |
| | | VS | BLUE | P.B.15:1 | 10 |

X = colorants with code preceded by X are based on pigments with excellent light and weather fastness
 (*) = colorants with inorganic pigments suitable for silicates, siloxanes and silicone based paints even in high alkaline environments

Advantages:

- set of 28 colorants to customize the tinting system on any need
- formulated for façade paints, allows for high levels of: water repellency, light and weather fastness
- mixed modules with water and universal colorants together
- enhances the properties of the paint: gloss, hardness, drying time and viscosity
- optimizes the cost of the formulas and improves opacity even in critical colours
- improves dosages and stability in the tinting machines: optimal rheology of the colorants, reduction of drying and sedimentation problems
- includes a black colorant with high TSR

Services:

- optimization of the pigment selection
- improvement of colorant and base paint compatibility
- characterization of your paint products and construction of the database of formulas
- optimization of the formulas: opacity, cost, light and weather fastness
- adoption of our fan-decks:
 - IrisPalette 1050 – Selection for interiors
 - IrisPalette 180 – Selection for exteriors
- development of new fan-decks and colour cards
- adoption of our software IrisBlendSW
